TERMINOLOGY

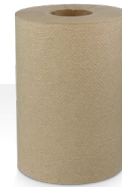

A guide to common terms for Mayfair® Towel & Tissue.

Through Air Drying (TAD)	A premium, 100% virgin fiber towel that is softer and more absorbent than standard-grade paper
1-Ply	Made using one layer of paper for an economical towel
2-Ply	Made using two layers of paper for a higher rate of absorbency, speed, and capacity. The two layers can be joined using ply-bond or emboss methods or a combination of both.
Ply-Bond	Layers are pressed together to join <ul style="list-style-type: none">• Most economical
Emboss	Layers are passed through patterned rollers that cut & shorten cellulose fibers to improve flexibility & design <ul style="list-style-type: none">• Improved softness, thickness, and absorbency
Ply-Bond + Emboss	Combining the two methods makes for a stronger connection of layers <ul style="list-style-type: none">• Improves absorbency, strength, and thickness
